What You Need to Provide:

- Name
- Address
- Marital Status
- DOB
- Place of birth
- Next of Kin (Complete name /address/phone/email)
- SS #
- Parents Names
- Educational level
- Occupation/Type of Business
- Veteran (add'l discounts may apply)

The Process Simplified: At Mountain Oak, We Make It Simple and Easy

- Once death has occurred, we perform the transfer from the place of death
- Decedent is held in our care in a climate-controlled facility until 48 hours have expired and ALL document requirements have been fulfilled*
- We notify the State Medical Examiner who will issue the required Cremation Certificate.
- During the 48-hour wait period, we obtain the statistical data on the decedent to complete the death certificate and other authorizations.**
- We then will schedule the cremation at an affiliated crematory here in the Stamford/Bridgeport area. We transport the decedent in a simple wood container.
- Cremated remains are available the next business day after the cremation and transported in a small rectangular plastic container.***

* The state of CT has a mandatory 48 hours wait period from time of death before cremation can take place.

** The immediate next of kin (s) will sign the CT Permit and Crematory Authorization which we will provide via email.

*** You will have the opportunity to purchase a memorial urn or jewelry should you wish. See Options below.

Please Note: all documents are signed electronically for your convenience via our portal. Assistance available should you require.
